

Upgrade your Electrical Service
with Eaton's **Type CH Panels**.

Not everything gets better with age. Many electrical problems can go undetected until it is too late. Outdated panels may contain weak connection points. Today's electrical systems are stressed by increased power demands that they were not designed to handle. Potential hazards may develop as wiring deteriorates over time.

One Antique You Don't Want in Your Home

Your home is the largest investment you will make in your lifetime. Your family is the most valuable asset. Protect them both by upgrading your electrical system.

A Panel Upgrade Can Deliver:

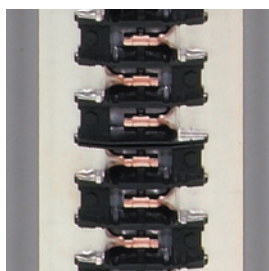

- Increased safety & peace of mind
- Increased capacity for more loads

- Flexibility for future circuits
- Convenience. Circuit breakers can be reset safely and easily
- Increased home value
- Fire-protection with Arc Fault circuit breakers
- Shock-protection with Ground Fault circuit breakers
- Optional complete home surge protection for sensitive electronics

Not All Panels Are Created Equal

Incomparable Quality.
35kAIC Commercial grade main breaker provides superior ratings and performance.

Safe & Reliable. One-piece silver plated copper bus eliminates hot spots and resists corrosion.

Easy to use. Exclusive "Trip to OFF" feature allows for simple one-step reset.

Electronics Protection.
Optional complete home surge protection helps extend the life of your appliances & electronics.

Additional Features & Benefits:

- ✓ Demonstrated performance. UL approved & field proven for over 40 years.
- ✓ All metal backpan prevents cracking.
- ✓ Circuit directory allows for easy identification of circuits.
